

VEP Pipeline Unicode Substitutions

Unlisted characters do not have a direct simple text translation, so they are translated to '@' by the character cleaner. '@' marks can be automatically stripped out or left in place at the discretion of the user. Spacing characters are translated to '|' and automatically stripped out, as they represent visual placement rather than punctuation.

Greek and Latin Letter Substitutions

| Character | Substitution |
|-----------|--------------|
| À | A |
| Á | A |
| Â | A |
| Ã | A |
| Ä | A |
